Dairy Digester Update

"Project Progress "

Spirit of California's new website has evolved to keep pace with the project's development.

We have been diligently working with our website designers in presenting our new site.

Under the direction of our staff they have given us a new and exciting website image to define our project and all those involved in the development.

We have created, increased and updated narrative and other content regarding the project and the progress we are making.

We are excited for everyone to view the website and provide your comments and feedback. We will continue to update and perfect the website as we proceed forward with the Spirit of California's development.

You will notice an addition to the website for a status report from the Board of Directors. This will be periodically updated with the ongoing status of developments.

Venue Developments

The Board of Directors has made the decision to eliminate the Casino from the current development plan. This was a difficult decision to make, but the board felt it was in the best interest of the progress of the project at this time.

Management will announce other design aspects in the coming months as they become fully developed. These website images are an important aspect of the EB-5 funding application package being prepared by Dr. Joseph Penbera.

Spirit of California Entertainment Group's management continue to focus on the work with Peter Alexander and Joseph Penbera as their work and the completion of the EB-5 application will provide funding for the continued development of the entertainment park venues as well as subsidiary company technologies.

Both of these gentlemen are fervent supporters of the concept of the Spirit of California Entertainment Park. They are excited for the recapturing of the California history and legacy in the multiple venues that will bring enjoyment to the public for generations to come.

California Investors Thank You:

Numerous California residents have become investors and we thank you for your continued support and participation.

We invite inquires about how to become part of the synergy. Please contact James B. Rogers, CEO for a private presentation regarding this unique opportunity at info@spiritofcalifornia.com

forever redefining your **Cultural Entertainment Experience**

We welcome you to the most exciting and innovative entertainment park in the country.

Spirit of California has developed a master planned ultimate entertainment park that includes a Theme Park, Boat Marina, Festival Park, Hotel / **Convention Center, Golf Course, Motorsports** Park, Movie Studio / Museum / Stage-Theater, Retail Shopping and Condominiums, MotorCoach & Camping Resort, Sports Complex, Vintner Center and Equestrian Center.

The synergy of these entities will provide one of the most exciting entertainment parks in the country and will become a "World Renowned" destination point.

Subsidiary Companies & Project Progress

INSIDE STORY:

SOC Resource Management (SOCRM) continues its pursuit of advanced technology for uti-lizing unused resources. Spirit of California in concert with

SOCRM is pursuing resource recovery technology in its entertainment park project development and has partnered with AECOM Water Divi-sion as previously reported.

We'are working with a Central California agricultural region IWWTP for utilizing the industrial treated and from its anaerobic digesters. The arrangements include an

association with a compost facility specializing in agricultural services for the industrial residuals to be trucked to, stored and processed at their facilities. We will provide bulk distri-bution of the fertilizer product derived from the organic materials to the industr

SOCRM technologies will bring many benefits to the city saving mil-lions of dollars annually in various operations and locations. Future plans include the efficient reutilization of CH4 / methane gases.

NEW NEWS:

SOC Resource Management continues to progress in our partnership with TerraStar En-ergy. TerraStar has increased their staff to facilitate our needs.

We are focusing our efforts with independent dairy farmers to incor-porate anaerobic digesters producing energy from solid waste.

Letter from the **Board of Directors Project Status:**

The Spirit of California Entertainment Group, Inc. continues to move forward with its developing master plan that will forever be redefining your Cultural Entertainment Experience

The Board of Directors and its staff are focused on developing the finest entertain-ment park in North America joining togeth-er the best of the best in the multiple industries developing the project.

It is very challenging to create a complete time line while we are in the pre-development stages with concept designers, architects, engineering, construction com-panies, accountants and the entitlement process surrounding a 2,000 + acres project. Each venue has challenges that we face as a team to create a succinct synergistic experience for all age group's enjoyment. Our staff, consultants and economic

advisors are encouraged and supportive of the master plan which remains fluid. As you may notice, new ideas have developed as we proceed, as well as some original concepts that have been placed on hold or deleted entirely. It takes a village to raise a child and it takes an army of talent and community cooperation to develop a project of this scope.

Proceeding forward, our newsletters will inform you of the evolution of the en-tertainment park vision. When we have an applicable project development schedule, we will update our newsletter and website. We are creating a life time Northern Collifornia destination for optortainment

California destination for entertainment, and we appreciate your continued support and encouragement as we continue the development of Spirit of California.
