"Project Progress"

Hotel, Casino & Convention Center

Peter Alexander's Totally Fun Company design study for the Spirit of California Entertainment Park Hotel, Casino in the forefront & Convention Center to the right hand side in the back ground.

We are excited to present Peter Alexander's concept rendering above for the Hotel and Casino.

Peter and his staff have worked diligently in developing the conceptual floor plan for the hotel. Its design size is derived from the feasibility studies which preclude it. In collaboration with the Spirit of California Entertainment Group, Inc. management they have agreed on the theme for the interior and exterior designs.

This is a very important accomplishment that will now allow continuation of the designs for the hotel rooms, lobby and reception areas and interior amenities. The design has evolved with a large atrium in the central ground floor corridor which will lend itself to restaurants and themes to be consistent with the entertainment

park's environment.

The hotel and casino is mirrored above in the adjacent beach and activity areas illustrating fun family activities for all ages.

We will be providing the atrium site plan that is currently under development in near future.

The complete feasibility study for the hotel and gaming casino are being researched and updated.

The contracted services for the rendering elevations as featured above along with the site plan, room design and interior atrium are all currently in process.

Management will announce the other design aspects in the coming months as they become fully developed.

These studies are an important aspect of the EB-5 funding application package being prepared by Dr. Joseph Penbera.

Spirit of California Entertainment Group's management are focused on the work with Peter Alexander and Joseph Penbera as their work and the completion of the EB-5 application will provide funding for the continued development of the entertainment park venues.

Both of these gentlemen are fervent supporters of the concept of the Spirit of California Entertainment Park. They are excited for the recapturing of the California history and legacy in the multiple venues that will bring enjoyment to the public for generations to come.

California investors welcome:

Numerous California residents have become investors. We are able to extend the invitation for additional investor participation. Minimum shareholder investments are available to qualified investors.

We invite you to inquire about how to become part of the synergy. Please contact James Rogers for a private presentation regarding this unique opportunity at jrogers@spiritofcalifornia.com

Visiting Spirit of California will forever redefine the meaning of amusement park

We welcome you to the most exciting and innovative entertainment park in the country.

Spirit of California has developed a master planned ultimate entertainment park that includes a Theme Park, Boat Marina, Festival Park, Gaming Casino, Hotel / Convention Center, Golf Course, Motorsports Park, Movie Studio / Museum / Stage-Theater, Retail Shopping and Condominiums, RV Motorhome Park, Sports Park and Vintner Center.

The synergy of these entities will provide one of the most exciting entertainment parks in the country and will become a "World Renowned" destination point.

Subsidiary Companies & Project Progress

INSIDE STORY:

SOC Resource Management Group continues its pursuit of advanced technology for utilizing unused resources.

Spirit of California in its pursuit to utilize resource recovery technology in its entertainment park project development has partnered with AECOM as previously reported.

We currently have feasibility studies in process with a city in the Central California Valley for their Waste Water Treatment Plant to utilize new water purification systems. The latest technology will bring significant re-use of purified water for local irrigation purposes.

The city has also requested a proposal to finalize utilizing a significant volume of biosolids.

SOC technologies will bring many benefits to the city saving millions of dollars annually in various operations and locations.

NEW NEWS:

SOC Resource Management Group is finalizing their agreement with Robert Deal, PE to join our team in partnership with TerraStar Energy.

We are focusing our efforts with independent dairy farmers to incorporate digesters to produce energy from bio-solids.

Letter from the President

I am pleased to inform you that Concerns about the Department of Corporations and Business Oversight of the State of California have been resolved.

Department of Corporations and Business Oversight have concluded the investigation involving Spirit of California Entertainment Group, Inc.

The oversight committee has cancelled the "Desist and Refrain" hearing scheduled for October 9th 2015. The department has settled all claims involving Spirit of California concerning the possible unlawful, sale of certain stock, unrelated to Spirit of California and making unsubstantiated statements.

They have found no information to support these allegations and have stipulated to no longer pursue Spirit of California or its officers.

The Department of Business Oversight has restated for the record that Spirit of California Entertainment Group, Inc. is a Corporation in good standing and has no further issues to resolve with the department and has concluded its case.

I trust that any uncertainty concerning the integrity of the corporation and its officers are now settled and can be removed from everyone's concerns. Previous newspaper reporters have sensationalized the negative accusations without thoroughly investigating the situation and solutions nor with any follow up.

Thank you for your support,
James B. Rogers
President
Spirit of California

ADOMANI, Inc. Investment Update:

(Spirit of California has a substantial shareholder investment in ADOMANI, Inc.)

Go Zero-Emission

Answering the need for reliable green transportation solutions, ADOMANI provides complete zero-emission electric and hybrid vehicle solutions to school bus and medium to heavy-duty fleet operators.

By delivering value on the total cost of ownership, ADOMANI helps commercial vehicles run clean and save green.

ADOMANI Re-Power Systems Overview

ADOMANI designs, manufactures and installs advanced zero-emission electric drivetrain systems for fleet vehicles.

Cab-Over-Engine Trucks

COE truck designs have many benefits for fleet operators. Aside from boasting superior driver visibility, an excellent turning radius and maneuverability, their multiple-configurations suit a variety of logistic needs. The cab tilts forward for easy engine area access and maintenance.

ADOMANI Product Goals:

- Initially to be built as a Class 5 destination truck (19,500 lb GVWR)
- May also choose to build as a Class 4 destination truck (14,500 lb GVWR) depending on Air District Incentives
- California Air Resources Board (CARB) Heavy-Duty Certification Program approval
- CARB "Hybrid and Zero-Emission Truck and Bus Voucher Incentive Project (HVIP) eligibility
